

# Death Matters

planning together for end of life

This workshop offers three guided meetings during which you will have the opportunity to explore options and make decisions about end-of-life care. The documents you create will provide peace of mind in the event of your illness and/or death.

- **Personal Directives:** what kind of measures do you want taken to keep you alive (or not)
- **Health Care Delegates:** who will speak for you if and when you are unable
- **Funeral Planning:** care of your body, funeral ceremony, disposal of corpse, and more

**It is never too soon to contemplate and prepare for death.**

To register for private consultation or workshop, please contact  
Deborah Luscomb, 902.403.7590,  
or Dawn Carson,
